

Sherman Cases

**24 Different Sizes
from 3U to 14U**

**All Rotomolded,
Interlocking and
Stackable**

**Standard Stainless
Steel Lid Hanging
Support and Cable**

S-Rack Series Cases

Rotomolded from virgin linear low-density polyethylene (LLDPE) resin. These high-performance rugged cases are completely impact, water, dust and shock resistant. They are MIL-STD 810 and ATA 300 certified to meet your toughest transportation and storage demands. Thanks to our Sherman stacking system, all containers are stackable with each other for storage and during transportation.

The **S-RACK SERIES** includes 24 different sizes ranging from 3U to 14U with many color options.

These cases offer 20% more protective material in edges and corners i.e., where it is needed most to ensure your valuable equipment is protected against anything that may come your way. Cases are further reinforced with steel bars inside to prevent bending and crushing.

They are ideal for use in electronics, broadcast, audio & video, military systems, critical communications, science & IT, unmanned AV & drone control units.

2 Year Warranty on Case and Accessories

SHERMAN ROTOMOLDED CASES 2 YEAR LIMITED WARRANTY

Sherman Cases guarantees its rotationally molded products will be free of defects in materials and workmanship for two

years from the date of invoice. This warranty covers all associated hardware including closure hardware, handles, wheels,

and fasteners. With valid dated proof of purchase, Sherman Case will either repair or replace any defective product, at our sole option.

S Rack Standard Features

- Made in the USA
